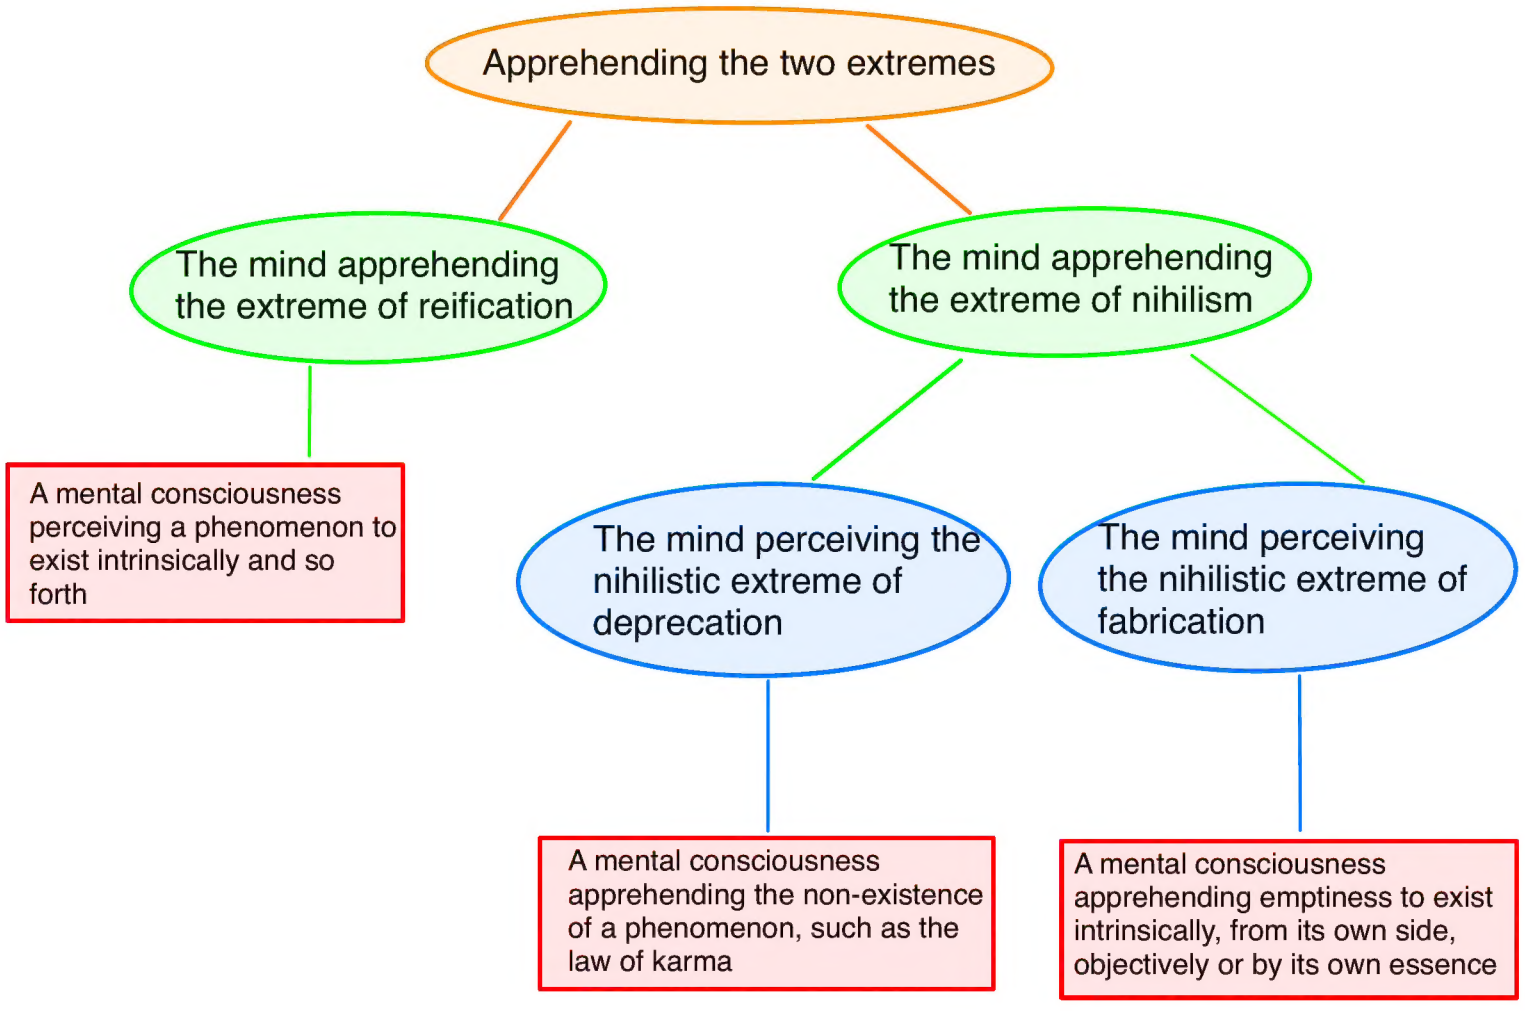
The two extremes
The extreme of reification
The extreme of nihilism
A phenomenon exists intrinsically, from its own side, objectively or by its own essence
The nihilistic extreme of deprecation
The nihilistic extreme of fabrication
The non-existence of a phenomenon, such as the law of karma
Emptiness exists intrinsically, from its own side, objectively or by its own essence



Apprehending the two extremes
The mind apprehending the extreme of reification
The mind apprehending the extreme of nihilism
A mental consciousness perceiving a phenomenon to exist intrinsically and so forth
The mind perceiving the nihilistic extreme of deprecation
The mind perceiving the nihilistic extreme of fabrication
A mental consciousness apprehending the non-existence of a phenomenon, such as the law of karma
A mental consciousness apprehending emptiness to exist intrinsically, from its own side, objectively or by its own essence
